

Nithissh Sampath Kumar

AI Engineer, Full Stack Developer, and Product Builder

B.Tech CSE (AI & ML), SRM Institute of Science and Technology | CGPA 8.38

Profile

Passionate AI and Machine Learning engineer focused on scalable intelligent systems, computer vision products, NLP workflows, and full stack applications.

Experience

Full Stack Engineer, CodeMeshFlow | Present

Building and scaling a developer collaboration platform for an early-stage startup.

Data Science Intern, Cognizance | June 2024 - August 2024

Built REST APIs using FastAPI, developed React interfaces, worked with MySQL, and designed scalable backend architecture.

Software Engineer Intern, Yuga Yatra Retail OPC Pvt Ltd | June 2025 - August 2025

Projects

EmotiSync - Emotion-aware meeting summarizer using Whisper, BERT, LangChain, FastAPI, React.

LipSpeak - Visual speech recognition with PyTorch, LipNet, MediaPipe, FastAPI, React.

Coral Reef Disease Detection - CNN, transfer learning, OpenCV, and Grad-CAM.

Baby Pacifier Product Development - CAD, ANSYS, CAM, ERP, and Adobe Suite.

Skills

Python, C, C++, JavaScript, MySQL, React, Tailwind, FastAPI, Flask, REST APIs, TensorFlow, PyTorch, Computer Vision, NLP, MediaPipe, BERT, LangChain.

Certifications

Google Analytics; AWS Machine Learning Terminology and Process; SQL Advanced; Artificial Intelligence and Deep Learning Techniques; GenAI Powered Data Analytics Simulation.
